NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(Expressed in U.S. Dollars)

(unaudited)

MARCH 31, 2008

1. HISTORY AND ORGANIZATION OF THE COMPANY

Silverwing Systems Corporation (the "Company"), a Nevada corporation, was incorporated on September 1, 1998. On June 23, 1999, the Company completed the acquisition of Advertain On-Line Canada Inc. ("Advertain Canada"), a Canadian company operating in Vancouver, British Columbia, Canada. The Company changed its name to Advertain On-Line Inc. ("Advertain") on August 19, 1999. Advertain Canada's business was the operation of a web site, "Advertain.com", whose primary purpose was to distribute entertainment advertising on the Internet.

In May 2001, the Company, being unable to continue its funding of Advertain Canada's operations, decided to abandon its interest in Advertain Canada. On June 15, 2001, the Company sold its investment in Advertain Canada back to Advertain Canada's original shareholder. On June 18, 2001, the Company changed its name from Advertain to RetinaPharma International, Inc. ("RetinaPharma") and became inactive.

In 2003, the Company became a resource exploration company. On October 31, 2003, the Company acquired 100% of the issued and outstanding common stock of Xtra-Gold Resources, Inc. ("XGRI"). XGRI was incorporated in Florida on October 24, 2003. On December 19, 2003, the Company changed its name from RetinaPharma to Xtra-Gold Resources Corp.

In 2004, the Company acquired 100% of the issued and outstanding capital stock of Canadiana Gold Resources Limited ("Canadiana") and 90% of the issued and outstanding capital stock of Goldenrae Mining Company Limited ("Goldenrae"). Both companies are incorporated in Ghana and the remaining 10% of the issued and outstanding capital stock of Goldenrae is held by the Government of Ghana.

On October 20, 2005, XGRI changed its name to Xtra Energy Corp. ("Xtra Energy").

On October 20, 2005, the Company incorporated Xtra Oil & Gas Ltd. ("XOG") in Alberta, Canada.

On December 21, 2005, Canadiana changed its name to Xtra-Gold Exploration Limited ("XG Exploration").

On January 13, 2006, Goldenrae changed its name to Xtra-Gold Mining Limited ("XG Mining").

On March 2, 2006, the Company incorporated Xtra Oil & Gas (Ghana) Limited ("XOGG") in Ghana.

2. GOING CONCERN

The Company is in the exploration stage with respect to its resource properties and, although it earned net income of \$52,305 for the three months ended March 31, 2008, it still has accumulated a deficit during the exploration stage of \$5,059,249. This raises substantial doubt about its ability to continue as a going concern. The ability of the Company to continue as a going concern is dependent on the Company's ability to raise additional capital and implement its business plan. The financial statements do not include any adjustments that might be necessary if the Company is unable to continue as a going concern.

Management of the Company ("Management") is of the opinion that sufficient financing will be obtained from external financing and further share issuances to meet the Company's obligations. At March 31, 2008, the Company has working capital of \$3,248,551.

3. SIGNIFICANT ACCOUNTING POLICIES

The accompanying unaudited financial statements have been prepared by the Company in conformity with accounting principles generally accepted in the United States of America applicable to interim financial information and with the rules and regulations of the United States Securities and Exchange Commission. Accordingly, certain information and footnote disclosures normally included in financial statements prepared in accordance with generally accepted accounting principles have been condensed, or omitted, pursuant to such rules and regulations. In the opinion of management, the unaudited interim financial statements include all adjustments necessary for the fair presentation of the results of the interim periods presented. All adjustments are of a normal recurring nature, except as otherwise noted below. These financial statements should be read in conjunction with the Company's audited consolidated financial statements and notes thereto for the year ended December 31, 2007, included in the Company's SB-2 Registration Statement on Form S-1, filed May 5, 2008, with the Securities and Exchange Commission. The results of operations for the interim periods are not necessarily indicative of the results of operations for any other interim period or for a full fiscal year.

Recent accounting pronouncements

In September 2006, the FASB issued SFAS No. 157, "Fair Value Measurements". SFAS No. 157 establishes a framework for measuring the fair value of assets and liabilities. This framework is intended to provide increased consistency in how fair value determinations are made under various existing accounting standards which permit, or in some cases require, estimates of fair market value. SFAS No. 157 is effective for fiscal years beginning after November 15, 2007, and interim periods within those fiscal years. Earlier application is encouraged, provided that the reporting entity has not yet issued financial statements for that fiscal year, including any financial statements for an interim period within that fiscal year.

FASB Staff Position 157-2 ("FSP FAS 157-2") delayed the effective date of FAS 157 until fiscal years beginning after November 15, 2008, and interim periods within those fiscal years, for all nonfinancial assets and nonfinancial liabilities, except for items that are recognized or disclosed at fair value in the financial statements on a recurring basis (at least annually). The Company adopted FAS 157 on January 1, 2008, and utilized the one year deferral for nonfinancial assets and nonfinancial liabilities that was granted by FSP FAS 157-2. The adoption of FAS 157 did not have a material impact on the Company's consolidated financial statements.

In February, 2007, the FASB issued SFAS No. 159 "The Fair Value Option for Financial Assets and Financial Liabilities". SFAS No. 159 permits entities to choose to measure many financial assets and financial liabilities at fair value. Unrealized gains and losses on items for which the fair value option has been elected are reported in earnings. SFAS No. 159 is effective for fiscal years beginning after November 15, 2007. The adoption of FAS 159 did not have a material impact on the Company's consolidated financial statements.

In March 2008, the FASB issued FAS No. 161, "Disclosures about Derivative Instruments and Hedging Activities" ("FAS 161"). FAS 161 changes the disclosure requirements for derivative instruments and hedging activities by requiring enhanced disclosures about how and why an entity uses derivative instruments, how derivative instruments and related hedged items are accounted for under FAS 133, and how derivative instruments and related hedged items affect an entity's operating results, financial position, and cash flows. FAS 161 is effective for fiscal years beginning after November 15, 2008. Early adoption is permitted. The Company is currently reviewing the provisions of FAS 161 and has not yet adopted the statement. However, as the provisions of FAS 161 are only related to disclosure of derivative and hedging activities, the Company does not believe the adoption of FAS 161 will have a material impact on its consolidated operating results, financial position or cash flows.

Kwabeng and Pameng Projects

The Company holds two mining leases in Ghana. These mining leases grant the Company surface and mining rights to produce gold in the leased areas until July 26, 2019. All gold production will be subject to a 3% production royalty of the net smelter returns (“NSR”).

Apapam, Banso and Muoso Projects

The Company holds prospecting licenses on its Apapam, Banso and Muoso Projects in Ghana. These licenses grant the Company the right to conduct exploratory work to determine whether there are mineable reserves of gold or diamonds in the licensed areas, are for two years and are renewable. If mineable reserves of gold or diamonds are discovered, the Company will have the first option to acquire a mining lease.

Option agreement on Edum Banso Project

In October, 2005, XG Exploration entered into an option agreement (the “Option Agreement”) with Adom Mining Limited (“Adom”) to acquire 100% of Adom’s right, title and interest in and to a prospecting license on the Edum Banso concession (the “Edum Banso Project”) located in Ghana. Adom further granted XG Exploration the right to explore, develop, mine and sell mineral products from this concession. The Option Agreement has a five year term.

The consideration paid was \$15,000 with additional payments of \$5,000 to be paid on the anniversary date of the Option Agreement in each year during the term. Upon the commencement of gold production, an additional \$200,000 is to be paid, unless proven and probable reserves are less than 2,000,000 ounces, in which case the payment shall be reduced to \$100,000. Upon successful transfer of title from Adom to XG Exploration, a production royalty (the “Royalty”) of 2% of the net smelter returns shall be paid to Adom; provided, however that in the event that less than 2,000,000 ounces of proven and probable reserves are discovered, then the Royalty shall be 1%. The Royalty can be purchased by XG Exploration for \$2,000,000; which will be reduced to \$1,000,000 if proven and probable reserves are less than 2,000,000 ounces.

Mining lease and prospecting license commitments

The Company is committed to expend, from time to time to the Minerals Commission for an extension of an expiry date of a prospecting license (currently \$15,000 for each occurrence) or a mining lease and the Environmental Protection Agency (“EPA”) (of Ghana) for processing and certificate fees with respect to EPA permits, an aggregate of less than \$500 in connection with annual or ground rent and mining permits to enter upon and gain access to the areas covered by the Company’s mining leases and prospecting licenses.

6. CAPITAL STOCK**Private placements**

In February 2008, the Company issued 1,062,000 units at \$1.50 per unit for gross proceeds of \$1,593,000. Each unit consisted of one common share and one share purchase warrant enabling the holder to acquire an additional common share at a price of \$2.25 per share expiring one year from the earlier of the posting of our shares on an over-the-counter bulletin board service and the listing of our shares on a recognized stock exchange. The Company also issued finder's warrants enabling the holder to acquire up to 84,960 common shares at the same terms as the unit warrants.

Stock options

The number of shares reserved for issuance under the Company's equity compensation option plan is 3,000,000. The terms and conditions of any options granted, including the number and type of options, the exercise period, the exercise price and vesting provisions, are determined by the board of directors.

10. CONTINGENCY AND COMMITMENTS

- a) During the year ended December 31, 2006, a former consultant to the Company's Ghanaian subsidiaries brought an action for damages in the High Court of Ghana, alleging wrongful termination and claiming \$172,000 was owed. The Company believed the lawsuit was without merit and vigorously defended against it. No liability has been recorded in connection with the lawsuit. On February 6, 2008, the High Court of Ghana rendered its judgment and dismissed the action and awarded costs of \$2,050 (2,000 cedis) in favor the Company's Ghanaian subsidiaries. The plaintiff did not exercise his right to appeal which expired on May 6, 2008.
- b) Effective May 1, 2006, the Company entered into a management consulting agreement with the Vice President, Exploration whereby the Company will pay \$4,672 (Cdn\$5,000) per month for three years. In the event of termination, without cause, 18 months of fees will be payable.
- c) Effective November 1, 2006, the Company entered into a management consulting agreement with the Vice President, Ghana Operations whereby the Company will pay \$1,000 per month for one year and was subsequently renewed for a further one year term on November 1, 2007.
- d) Effective July 1, 2007, the Company entered into a management consulting agreement with the Vice President, Finance whereby the Company will pay \$2,818 (Cdn\$3,000) per month for one year.
- e) Effective December 1, 2007, the Company entered into a management consulting agreement with the Secretary and Treasurer whereby the Company will pay \$5,895 (Cdn\$6,500) per month for one year.

Item 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion and analysis of our consolidated financial conditions and results of operations for the three months ended March 31, 2008 and 2007 should be read in conjunction with the consolidated financial statements and the related notes to our consolidated financial statements and other information presented elsewhere in this Report. The following discussion contains forward-looking statements that reflect our plans, estimates and beliefs. Our actual results could differ materially from those discussed in the forward-looking statements set out herein. Factors that could cause or contribute to such differences include, but are not limited to those discussed below and as contained elsewhere in this Report. Our consolidated audited financial statements are stated in United States Dollars and are prepared in accordance with United States Generally Accepted Accounting Principles.

Plan of Operations

Xtra-Gold Resources Corp. (hereinafter in this Report referred to as “Xtra-Gold”, the “company” or the “Registrant”) a gold exploration company engaged in the exploration of gold properties in the Republic of Ghana, West Africa. Our mining portfolio currently consists of 246.84 square kilometers (also referred to herein as “sq km”) comprised of 51.67 sq km for our Banso Project, 55.65 sq km for our Muoso Project, 33.65 sq km for our Apapam Project, 44.76 sq km for our Kwabeng Project, 40.51 sq km for our Pameng Project and 20.60 sq km for our Edum Banso Project, or 60,969 acres, pursuant to the leased and licensed areas set forth in our respective mining leases, prospecting licenses and/or option agreement.

Our strategic plan is, with respect to our gold projects: (i) to define potential reserves on our exploration projects; (ii) to mine the mineralized material, where possible, to generate cash proceeds to assist funding of our exploration programs; and (iii) to acquire further interests in gold mineralized projects and oil and gas prospects that fall within the criteria of providing a geological basis for development of drilling initiatives that can enhance shareholder value by demonstrating potential to define reserves.

We anticipate that our ongoing efforts, subject to adequate funding being available, will continue to be focused on the exploration and development of our properties and completing acquisitions in strategic areas.

Our ability to continue to expand land acquisitions and drilling opportunities during the next 12 months is dependent on adequate capital resources being available. Assuming that we will be able to continue to derive cash proceeds from the sale of the gold recovered from the mineralized material at our Kwabeng Project, we intend to continue to advance operations at our Kwabeng Project, recover gold for sale and acquire further interests in mineral projects by way of acquisition or joint venture participation.

We anticipate that, over the next 12 months, we will spend an aggregate of \$7,700,000 comprised of \$5,000,000 for mining operating, capital and administrative costs at our Kwabeng Project, \$1,500,000 for exploration expenses and \$1,200,000 for general and administrative expenses. However, we would not expend this amount unless we are able to derive cash proceeds from the sale of the gold recovered from the mineralized material at our Kwabeng Project.

We require additional capital to implement our plan of operations. We anticipate that these funds primarily will be raised through equity and debt financing or from other available sources of financing. If we raise additional funds through the issuance of equity or convertible debt securities, it may result in the dilution in the equity ownership of investors in our common stock. There can be no assurance that additional financing will be available upon acceptable terms, if at all. If adequate funds are not available or are not available on acceptable terms, we may be unable to take advantage of prospective new opportunities or acquisitions, which could significantly and materially restrict our operations, or we may be forced to discontinue our current projects.

We do not expect to purchase significant ore processing and gold recovery equipment as our Wash Plant has sufficient capacity to handle our processing requirements at our Kwabeng Project. We rent our earthmoving and ancillary earthmoving equipment fleet in connection with our ongoing operations at our Kwabeng Project. We plan to increase the number of key mining personnel including technical consultants, contractors and skilled laborers during the next 12 months. Our current business strategy is that we plan to continue engaging technical personnel under contract where possible as Management believes that this strategy, at its current level of development, provides the best services available in the circumstances, leads to lower overall costs, and provides the best flexibility for our business operations.

Results of Operations for the Three Months Ended March 31, 2008 Compared to the Three Months Ended March 31, 2007

Our profit for the three months ended March 31, 2008 was \$52,305 as compared to a loss of \$533,953 for the three months ended March 31, 2007, an improvement of \$586,258. We incurred expenses of \$1,438,816 in the three months ended March 31, 2008 as compared to \$1,015,425 in the three months ended March 31, 2007, an increase of \$423,391. The significant increase in expenses in the three months ended March 31, 2008 can be primarily attributed to exploration costs of \$1,191,661 (2007- \$655,897), incurred mostly in connection with (i) operational costs and costs associated with the recovery of gold from the mineralized material at our Kwabeng Project; and (ii) exploration expenditures relating to the exploration programs at our Banso and Muoso Project, our Apapam Project and our Edum Banso Project.

Our profit for the three months ended March 31, 2008 can be attributed to (i) a decrease in general and administrative costs (2008 - \$243,373; 2007 - \$353,048); (ii) an increase in net cash proceeds of \$1,478,362 derived from the sale of 1,708.10 fine ounces of gold recovered from the mineralized material at our Kwabeng Project as compared to \$391,400 for the three months ended March 31, 2007.

Other items totaled a gain of \$1,491,121 for the three months ended March 31, 2008 compared to a gain of \$481,472 for the three months ended March 31, 2007. In particular, during the three months ended March 31, 2008, we recovered and sold 1,708.10 fine ounces of gold from the mineralized material at our Kwabeng Project and booked \$1,478,362 as Recovery of Gold as compared to Recovery of Gold for the three months ended March 31, 2007 of 608.50 ounces for cash proceeds of \$391,400. We had a foreign exchange loss of \$98,065 for the three months ended March 31, 2008 as compared to a gain of \$23,175 for the three months ended March 31, 2007 which can be attributed to the weakening of the US dollar.

Our portfolio of marketable securities had an unrealized gain of \$72,834 for the three months ended March 31, 2008 as compared to an unrealized gain of \$49,123 in 2007. Additionally, our securities portfolio realized a gain of \$20,022 on the sale of trading securities during the three months ended March 31, 2008 compared to a loss in 2007 of \$8,557. Other income derived from dividends fell (2008 - \$36,028; 2007 - \$45,486). Interest expense is largely attributable to our convertible debentures which was essentially flat (March 2008 - \$18,060; 2007 - \$19,266).

Our basic and diluted income per share for the three months ended March 31, 2008 was \$nil compared to a loss of \$0.02 per share for the three months ended March 31, 2007. The weighted average number of shares outstanding was 29,464,359 at March 31, 2008 compared to 28,088,157 for the three months ended March 31, 2007. The increase in the weighted average number of shares outstanding can be attributed to the issuance of 668,202 shares and 1,062,000 shares in connection with two Regulation S private placements completed in October 2007 and February 2008.

Liquidity and Capital Resources

Historically, our principal source of funds is our available resources of cash and cash equivalents and investments, as well as debt and equity financings. During the three months ended March 31, 2008, we received net cash proceeds of \$1,478,362 derived from the sale of gold recovered from the mineralized material at our Kwabeng Project. Additionally, we completed a private placement of 1,062,000 units for net proceeds of \$1,467,960 as set out elsewhere in this Report.

Unrealized Gain on Trading Securities Held for Sale

Unrealized gain on trading securities held for sale represents the change in securities as of the end of the financial reporting period. For the three months ended March 31, 2008, we recognized an unrealized gain of \$72,834 on trading securities held for sale, as compared to an unrealized gain of \$49,234 for the three months ended March 31, 2007. Trading securities were comprised mostly of investments in common shares and income trust units of resource companies.

Liquidity Discussion

Net cash provided by financing activities during the three months ended March 31, 2008 was \$1,467,960 (2007 - \$nil).

As of March 31, 2008, we had working capital of \$3,248,551, comprised of current assets of \$3,838,061 less current liabilities of \$589,510. Our current assets were comprised mostly of \$1,491,654 in cash and cash equivalents and \$2,288,009 in trading securities, which is based on our analysis of the ready saleable nature of the securities including an existing market for the securities, the lack of any restrictions for resale of the securities and sufficient active volume of trading in the securities. Our trading securities are held in our investment portfolio with an established brokerage in Canada in which we primarily invest in the common shares and income trust fund units of publicly traded resource companies.

As we have received limited cash proceeds from the recovery of gold from our mineralized material since inception, we have historically relied on equity and debt financings to finance our ongoing operations. Existing working capital, and possible debt instruments, anticipated warrant exercises, further private placements and anticipated cash flow are expected to be adequate to fund our operations over the next year. We have no lines of credit or other bank financing arrangements. Generally, we have financed operations to date through the proceeds of the private equity financings and a convertible debt financing. In connection with our business plan, Management anticipates operating expenses and capital expenditures as follows: (i) \$1,500,000 for exploration; (ii) \$5,000,000 for mine operating, capital and administration costs at our Kwabeng Project; and (iii) \$1,200,000 for general and administrative costs.

Absent deriving cash proceeds from the sale of gold recovered from the mineralized material at our Kwabeng Project in future financial periods or raising additional financing, we estimate that we will be able to continue operations for approximately 12 months. Until we achieve profitability, we will need to raise additional capital for our exploration programs. We intend to finance these expenses with our cash proceeds and, to the extent that our cash proceeds are not sufficient, then from further sales of our equity securities or debt securities, or from investment income. Thereafter, we may need to raise additional capital to meet long-term operating requirements. Additional financing may not be available upon acceptable terms, or at all. If adequate funds are not available or are not available on acceptable terms, we may not be able to take advantage of prospective new business endeavors or opportunities or existing agreements and projects which could significantly and materially restrict our business operations.

The independent auditors' report accompanying our December 31, 2007 and December 31, 2006 consolidated financial statements contains an explanatory paragraph expressing doubt about our ability to continue as a going concern. The consolidated financial statements have been prepared "assuming that we will continue as a going concern", which contemplates that we will realize our assets and satisfy our liabilities and commitments in the ordinary course of business.

Recent Capital Raising Transactions

During the three months ended March 31, 2008, net cash flows from financing activities were \$1,467,960 (2007 - \$nil). These funds were raised through the sale of common stock, net of financing costs.

In February 2008, we received gross proceeds of \$1,593,000 in connection with a private equity financing whereby we sold units comprised of 1,062,000 shares of our common stock and 1,062,000 warrants at an exercise price of \$2.25 per share expiring one year from the earlier of the posting of our shares on an over-the-counter bulletin board service and the listing of our shares on a recognized stock exchange. The securities were sold to 13 non U.S. persons, and the transaction was exempt from registration under the Securities Act pursuant to section 4(2) and Rule 506 thereunder and Regulation S. We paid a finder's fee of \$127,440 for introduction to the purchasers and issued 84,960 finder's warrants enabling the holder to acquire up to 84,960 shares of our common stock on the same terms as the unit warrants.

Material Commitments

(a) Mineral Property Commitments

Save and except for fees payable from time to time to (i) the Minerals Commission for an extension of an expiry date of a prospecting license (current consideration fee payable is \$15,000) or mining lease or annual operating permits; (ii) the Environmental Protection Agency (“EPA”) in Ghana for the issuance of permits prior to the commencement of any work at a particular concession or the posting of a bond in connection with any mining operations undertaken by our company; and (iii) a legal obligation associated with our mineral properties for clean up costs when work programs are completed, we are committed to expend an aggregate of less than \$500 in connection with annual or ground rent and mining permits to enter upon and gain access to the following concessions and such other financial commitments arising out of any approved exploration programs in connection therewith:

- (i) the Kwabeng concession (Kwabeng Project);
- (ii) the Pameng concession (Pameng Project);
- (iii) the Banso and Muoso concessions (Banso and Muoso Project);
- (iv) the Apapam concession (Apapam Project); and
- (v) the Edum Banso concession (Edum Banso Project).

With respect to the Kwabeng, Pameng and Apapam Projects, upon and following the commencement of gold production, a royalty of 3% of the net smelter returns is payable quarterly to the Government of Ghana.

With respect to the Edum Banso Project:

- (a) \$5,000 is payable to Adom Mining Limited (“Adom”) on the anniversary date of the Option Agreement in each year that we hold an interest in the agreement;
- (b) \$200,000 is payable to Adom when the production of gold is commenced (or \$100,000 in the event that less than 2 million ounces of proven and probable reserves are discovered on our project at this concession; and
- (c) an aggregate production royalty of 2% of the net smelter returns (“NSR”) from all ores, minerals and other products mined and removed from the project, except if less than 2 million ounces of proven and probable reserved are discovered in or at the Project, then the royalty shall be 1% of the NSR.

(b) Repayment of Convertible Debentures and Accrued Interest

We are committed to repay our Convertible Debenture holders outstanding amounts of principal and interest calculated at 7% per annum on an aggregate face value of \$900,000. Interest only payments are payable quarterly on the last days of September, December, March and June in each year of the term or until such time that the principal has been repaid in the full. The Convertible Debenture holders are entitled, at their option, to convert, at any time and from time to time, until payment in full of their respective Convertible Debentures, all or any part of the outstanding principal amount of the Convertible Debenture, plus the Accrued Interest, into shares (the “**Conversion Shares**”) of our common stock at the conversion price of \$1.00 per share (the “**Conversion Price**”). Provided there is a registration statement then in effect covering the Conversion Shares, or the Conversion Shares may otherwise be resold pursuant to Rule 144, the outstanding principal amount of each Convertible Debenture, and all accrued but unpaid interest, shall automatically be converted into shares of our common stock, at the Conversion Price, in the event that our common stock trade for 20 consecutive trading days (a) with a closing bid price of at least \$1.50 per share and (b) a cumulative trading volume during such twenty (20) trading day period of at least 1,000,000 shares.

(c) **Further Material Commitments**

Further material commitments are subject to new funding arrangements to be obtained or agreements not yet formalized.

Purchase of Significant Equipment

We do not expect to purchase significant ore processing and gold recovery equipment as our Wash Plant has sufficient capacity to handle our processing requirements at our Kwabeng Project. We rent our earthmoving and ancillary earthmoving equipment fleet in connection with our ongoing operations at our Kwabeng Project.

Off Balance Sheet Arrangements

We have no off balance sheet arrangements.

Significant Accounting Applications

The accompanying unaudited financial statements have been prepared by Xtra-Gold in conformity with accounting principles generally accepted in the United States of America applicable to interim financial information and with the rules and regulations of the United States Securities and Exchange Commission. Accordingly, certain information and footnote disclosures normally included in financial statements prepared in accordance with generally accepted accounting principles have been condensed, or omitted, pursuant to such rules and regulations. In the opinion of management, the unaudited interim financial statements include all adjustments necessary for the fair presentation of the results of the interim periods presented. All adjustments are of a normal recurring nature, except as otherwise noted below. These financial statements should be read in conjunction with the Company's audited consolidated financial statements and notes thereto for the year ended December 31, 2007, included in the Company's SB-2 Registration Statement on Form S-1, filed May 5, 2008, with the Securities and Exchange Commission. The results of operations for the interim periods are not necessarily indicative of the results of operations for any other interim period or for a full fiscal year.

Recent Accounting Pronouncements

In September 2006, the FASB issued SFAS No. 157, "Fair Value Measurements". SFAS No. 157 establishes a framework for measuring the fair value of assets and liabilities. This framework is intended to provide increased consistency in how fair value determinations are made under various existing accounting standards which permit, or in some cases require, estimates of fair market value. SFAS No. 157 is effective for fiscal years beginning after November 15, 2007, and interim periods within those fiscal years. Earlier application is encouraged, provided that the reporting entity has not yet issued financial statements for that fiscal year, including any financial statements for an interim period within that fiscal year.

FASB Staff Position 157-2 ("**FSP FAS 157-2**") delayed the effective date of FAS 157 until fiscal years beginning after November 15, 2008, and interim periods within those fiscal years, for all nonfinancial assets and nonfinancial liabilities, except for items that are recognized or disclosed at fair value in the financial statements on a recurring basis (at least annually). We adopted FAS 157 on January 1, 2008, and utilized the one year deferral for nonfinancial assets and nonfinancial liabilities that was granted by FSP FAS 157-2. The adoption of FAS 157 did not have a material impact on our consolidated financial statements.

In February, 2007, the FASB issued SFAS No. 159 "The Fair Value Option for Financial Assets and Financial Liabilities". SFAS No. 159 permits entities to choose to measure many financial assets and financial liabilities at fair value. Unrealized gains and losses on items for which the fair value option has been elected are reported in earnings. SFAS No. 159 is effective for fiscal years beginning after November 15, 2007. The adoption of FAS 159 did not have a material impact on our consolidated financial statements.

In March 2008, the FASB issued FAS No. 161, "Disclosures about Derivative Instruments and Hedging Activities" ("**FAS 161**"). FAS 161 changes the disclosure requirements for derivative instruments and hedging activities by requiring enhanced disclosures about how and why an entity uses derivative instruments, how derivative instruments and related hedged items are accounted for under FAS 133, and how derivative instruments and related hedged items affect an entity's operating results, financial position, and cash flows. FAS 161 is effective for fiscal years beginning after November 15, 2008. Early adoption is permitted. Our company is currently reviewing the provisions of FAS 161 and has not yet adopted the statement. However, as the provisions of FAS 161 are only related to disclosure of derivative and hedging activities, we do not believe the adoption of FAS 161 will have a material impact on our consolidated operating results, financial position or cash flows.

Forward Looking Statements

The information in this quarterly report contains forward-looking statements. These forward-looking statements involve risks and uncertainties, including statements regarding our financial condition, results of operations, business prospects, plans, objectives, goals, strategies, expectations, future events, capital expenditure and exploration efforts. Any statements contained herein that are not statements of historical facts may be deemed to be forward-looking statements. In some cases, forward-looking statements can be identified by terminology such as "anticipates", "expects", "intends", "plans", "forecasts", "projects", "budgets", "believes", "seeks", "estimates", "could", "might", "should", "may", "will", "predict", "potential" or "continue", the negative of such terms or other comparable terminology. Actual events or results may differ materially. In evaluating these statements, you should consider various factors, including the risks outlined from time to time, in other reports that Xtra-Gold files with the Securities and Exchange Commission. These factors may cause our actual results to differ materially from any forward-looking statement. We disclaim any obligation to publicly update these statements, or disclose any difference between its actual results and those reflected in these statements. The information constitutes forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995.

Item 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Our company is a smaller reporting company, as defined by Rule 12b-2 of the Exchange Act and, as such, is not required to provide the information required under this item.

Item 4T. CONTROLS AND PROCEDURES

(a) Disclosure Controls and Procedures

Disclosure controls and procedures are designed to ensure that information required to be disclosed in the reports filed or submitted under the Exchange Act is recorded, processed, summarized and reported, within the time period specified in the SEC's rules and forms and is accumulated and communicated to Management of the company including James Longshore, Principal Executive Officer and Principal Financial Officer and Peter Minuk, Vice-President Finance, as appropriate, in order to allow timely decisions in connection with required disclosure.

(b) Evaluation of Disclosure Controls and Procedures

Messrs. Longshore and Minuk have evaluated the effectiveness of the design and operation of our company's disclosure controls and procedures (as such term is defined in Rules 13a-15 and 15d-15 under the Securities Exchange Act of 1934 (the "**Exchange Act**")) as of the end of the period covered by this quarterly report. Based on such evaluation, they have concluded that our disclosure controls and procedures are effective to ensure that information required to be disclosed in the reports that the company files and submits under the Exchange Act is recorded, processed, summarized and reported, as and when required.

(c) **Changes in Internal Controls**

During the quarter of the fiscal year covered by this Report, there were no changes in our internal control over financial reporting that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

PART II – OTHER INFORMATION

Item 1. LEGAL PROCEEDINGS

We are currently not a party to any legal proceeding and we were not a party to any legal proceeding during the quarter ended March 31, 2008. We are currently not aware of any legal proceedings proposed to be initiated against our company, however, from time to time, we may become subject to claims and litigation that are generally associated with any business venture.

Item 1A. RISK FACTORS

Our company is a smaller reporting company, as defined by Rule 12b-2 of the Exchange Act and, as such, we are not required to provide the information required by this item.

Item 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

In February 2008, we completed a private equity financing whereby we received gross proceeds of \$1,593,000 whereby we sold units comprised of 1,062,000 shares of our common stock and 1,062,000 warrants at an exercise price of \$2.25 per share expiring one year from the earlier of the posting of our shares on an over-the-counter bulletin board service and the listing of our shares on a recognized stock exchange. The units were sold to 13 non U.S. persons, and the transaction was exempt from registration under the Securities Act pursuant to section 4(2) and Rule 506 thereunder and Regulation S. We paid a finder's fee of \$127,440 for introduction to the purchasers and issued 84,960 finder's warrants enabling the holder to acquire up to 84,960 shares of our common stock on the same terms as the unit warrants.

The proceeds of this transaction will be utilized to fund our planned exploration programs and for general and administrative purposes.

Item 3. DEFAULTS UPON SENIOR SECURITIES

There has been no material default, during the period covered by this Report, in the payment of principal, interest, a sinking or purchase fund installment, or any other material default not cured within 30 days with respect to any indebtedness of our company or any of our significant subsidiaries exceeding 5% of our total assets and our consolidated subsidiaries.

Item 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

There has been no matter submitted to a vote of security holders during the period covered by this Report, through the solicitation of proxies or otherwise.

Item 5. OTHER INFORMATION

On January 31, 2008, we entered into a termination agreement with our former project manager, John Douglas Mills and his management company, JD Mining Limited, whereby all parties agreed to terminate the consulting services provided by them effective March 1, 2008. As part of the termination, the Board agreed to extend the exercise period for 300,000 stock options previously granted to Mr. Mills to June 1, 2008 which, if not exercised by this date, will then be cancelled.

Dear Doug:

In accordance with the terms and conditions for termination by Xtra-Gold Resources Corp. ("**Xtra-Gold**" or the "**Company**") of the consulting agreement dated March 20, 2007 (the "**JDM Agreement**") made between Xtra-Gold and J.D. Mining Ltd. ("**JDM**"), we hereby provide you with 30 days' notice that we wish to terminate the JDM Agreement effective March 1, 2008 (the "**Effective Date**").

We wish to address the following matters.

Termination Payments

1. The Parties hereto mutually agree that no payment will be made as a result of the termination of the JDM Agreement.

Future Consulting Services

2. Xtra-Gold has indicated that from time to time it may require assistance from JDM or Mills and trusts that JDM and/or Mills will be available to provide such consulting services. Any compensation to be paid to JDM and/or Mills for such assistance will be negotiated between the Parties at the relevant time.

Option Arrangement

3. Provided that JDM and Mills execute this Agreement and the full and final release (the “**Release**”) forming a part hereof, the Board has approved that an aggregate of 300,000 stock options issued to JDM or Mills (the “**Options**”) may be exercised within 90 days of the Effective Date (being March 1, 2008). Accordingly, the exercise period for the Options will expire on June 1, 2008 at which time any Options then unexercised will be cancelled.
4. In the event that JDM and Mills fail to execute this Agreement and the Release, the Options shall be governed by the terms and conditions of the agreements entered into in connection therewith; namely that the Options are to be cancelled as of 90 days from the date (the “**Cancellation Date**”) upon which JDM and/or Mills last provided its consulting services. For clarity and for purposes of determining the Cancellation Date, Xtra-Gold’s records indicate that JDM and/or Mills’ last day of services was on or about August 8, 2007. Accordingly, the Cancellation Date would be November 8, 2007. For purposes of this paragraph, in the event of non-execution of this Agreement and the Release, the Options would have been cancelled as of November 8, 2007.
5. In the event that JDM and/or Mills elects to exercise the Options in whole or in part from time to time, the share certificate or certificates issued as a result thereof shall bear a restrictive legend in compliance with regulatory statutory hold periods with respect to the resale of the shares issued in connection therewith. In particular, until such time that a registration statement has been filed by Xtra-Gold and accepted by the U.S. Securities and Exchange Commission, in accordance with Rule 144: (i) the shares cannot be resold unless held for two years; or alternatively (ii) if Xtra-Gold is a reporting company, then the applicable hold period shall be one year from the date of the issuance of shares.

Return of Property of Xtra-Gold

6. Mills and/or JDM will return by courier to Xtra-Gold’s head office any and all materials and information relating to work for Xtra-Gold performed by JDM and/or Mills, still in their possession, by February 11, 2008. This includes books and publications relating, but not limited to, the mining industry, corporate and business matters and copies of any soft copy documentation that may be stored on the hard drive of your computer; namely any files, agreements, reports, correspondence, business plans, company policies, marketing materials, mining plans, technical and financial data as well as hard copies of such documentation and office equipment of which Xtra-Gold is the rightful and legal owner.
-

Binding Effect

7. Xtra-Gold confirms that:
- (a) this Agreement contemplates the settlement between the Parties hereto having been made for valuable consideration and is intended to and will be a legal, valid and binding agreement among the Parties who have executed this Agreement; and
 - (b) this Agreement shall supercede any and all other agreements that may have previously been entered into among the Parties hereto.

Confidentiality

8. We remind both JDM and Mills of your obligations of confidentiality to Xtra-Gold to hold any and all confidential information that JDM and Mills have received or generated in the course of their relationship with Xtra-Gold in the strictest of confidence and to refrain from divulging all such information to any person or other entity. These obligations of confidentiality survive the termination of the JDM Agreement and will continue until such time as the confidential information received or generated by JDM and Mills, in the course of their relationship with Xtra-Gold, legitimately comes into the public domain. We trust that JDM and Mills will abide by their obligations of confidentiality.

If the foregoing correctly reflects your understanding of the agreement reached among us, kindly so confirm by signing and returning to us a copy of this letter (execution in counterpart and by fax is acceptable), whereupon a binding agreement will be in effect among us as set forth above.

Xtra-Gold would like to thank JDM and Mills for their contributions and wish both of you much success in your future endeavours.

Yours very truly,

XTRA-GOLD RESOURCES CORP.

FULL AND FINAL RELEASE

IN CONSIDERATION of the agreement between Xtra-Gold Resources Corp. and the undersigned, as more particularly referred to in a letter agreement dated January 31, 2008 from James Longshore to the undersigned (the "**Letter Agreement**"), and for other good and valuable consideration, the adequacy and receipt of which is hereby acknowledged, the undersigned Douglas Mills ("**Mills**"), on my own behalf and on behalf of J.D. Mining Ltd. ("**JDM**"), hereby release and forever discharge Xtra-Gold Resources Corp., its officers, directors, servants, agents, successors and assigns (collectively referred to as "**Xtra-Gold**") of and from any and all actions, causes of actions, suits, contracts, torts (intentional or unintentional), covenants, debts, claims and demands of whatsoever nature and kind, in law or equity, statutory or otherwise, for damages, indemnity, costs, compensation or any other remedy, howsoever arising, which heretofore may have been, are or may hereafter be sustained by Mills or JDM for or by reason of any cause, matter or thing whatsoever up to the present time, and, without limiting the generality of the foregoing, by reason of any cause, matter or thing arising out of or in consequence of a consulting agreement dated March 20, 2007 made between JDM and Xtra-Gold or out of JDM's or Mills' association with Xtra-Gold as contractor/consultant, or the termination of such associations by Xtra-Gold; provided, however, that nothing herein contained shall release Xtra-Gold from any of its obligations as set out in the Letter Agreement.

AND FOR THE SAID CONSIDERATION, Mills agrees on my own behalf and on behalf of JDM:

- (1) to indemnify and hold harmless Xtra-Gold from and against any and all demands or claims for taxes, withholding taxes or any other form of payment to any government authority from Xtra in respect of JDM or Mills including interest, penalties and costs in connection therewith;
- (2) not to make any claim or take any proceedings against any other person or corporation or other entity who might claim contribution or indemnity from the persons and corporations and other entities discharged by this Release in respect of the subject matter of this Release.
- (3) that this settlement and the terms thereof are to remain confidential and JDM and Mills will not disclose the facts of this settlement or the terms thereof to any person, corporation or other entity except JDM and Mills' legal and financial advisors, Mills' immediate family and as may be required by law.
- (4) that JDM and Mills will not make any statements or do any acts which may cast a slur on or in any way disparage Xtra-Gold or any of its affiliates.

THE UNDERSIGNED DECLARES that they fully understand the terms of this settlement and have had the opportunity to receive independent legal advice prior to executing this document and that they voluntarily accept the consideration offered for the purpose of making full and final compromise and settlement of all claims as aforesaid.

CERTIFICATION
PURSUANT TO RULE 13a-14(a) OR 15d-14(a)
OF THE U.S. SECURITIES EXCHANGE ACT OF 1934

I, **JAMES WERTH LONGSHORE**, hereby certify that:

1. I have reviewed this report on Form 10-Q for the quarter ended March 31, 2008 of Xtra-Gold Resources Corp. (the “**Registrant**”).
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary in order to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report.
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the Registrant as of, and for, the periods presented in this report.
4. The Registrant’s other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the Registrant and have:
 - (a) designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which the annual report is being prepared;
 - (b) designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - (c) evaluated the effectiveness of the registrant’s disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - (d) disclosed in this report any change in the Registrant’s internal control over financial reporting that occurred during the Registrant’s most recent fiscal quarter (the registrant’s fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect the registrant’s internal control over financial reporting.
5. The Registrant’s other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the Registrant’s auditors and the audit committee of Registrant’s board of directors (or persons performing the equivalent function):
 - (a) all significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the Registrant’s ability to record, process, summarize and report financial information; and
 - (b) any fraud, whether or not material, that involves management or other employees who have a significant role in the Registrant’s control over financial reporting.
